

Year	Date	Grantor	Surname	of	Grantee	Place	Book	Page#	Summary	
									This index is looking through the Dalys on the names index + some associated surnames. Of the Dalys, I mostly look at the christian names Joseph, Charles, Daniel, Richard, James (though most of these are from Galway), Edmond, or where the grantee is someone who does business with the Dalys, e.g. Clanchy, Lyons, Callaghan, Langford, O'Donnell, Costley. Also Gawley (alternate form of Dalaigh). The deeds can be very hard to read (at least for me) and there are likely many errors in the notes here. The idea is to provide an index. If you see interesting notes, I encourage you to go to the registry of deeds and see the original memorial yourself.	
	This is data for my own research that I am making available here. It is very rough and has multiple errors. If you see a name/location here that is relevant to you, then I recommend that you note the reference and look up the original memorial in the registry of deeds.
